

Your invitation to attend:

The 21<sup>st</sup> annual

# Canadian Environmental Conference + Tradeshow (CANECT)

Gold-star environmental compliance training  
Register today to avoid disappointment!

ONE-STOP \* 3 DAYS • 3 KEYNOTES • 9 'GOLD STAR' COMPLIANCE COURSES! • 350+ EXHIBITORS • SEE INSIDE FOR DETAILS!

# CANECT 2013

Admit One

April 29, April 30 and May 1  
at The International Centre  
6900 Airport Road, Mississauga, Ontario

Olympiad Clara Hughes,  
"Partners in Prevention"  
Keynote Speaker, May 1.

1

Canada's leading environmental management and compliance training forum offers you a choice of nine targeted professional development courses designed to help you meet your environmental responsibilities.

2

Conveniently co-located with "Partners in Prevention 2013" CANECT offers you free admission to inspiring keynotes and Canada's largest environmental and health & safety exhibition - over 350 exhibits and displays featuring the latest in environmental and EHS solutions and technologies.

3

Multiple-registration discounts provide a great opportunity for key operational personnel to collectively appreciate their vital role in implementing environmental best practices, compliance and due diligence.

Visionary Leonard Brody  
"Partners in Prevention"  
Keynote Speaker, April 30.

Register for all 3 days at CANECT and become eligible for draw to win an 'I-Pad Mini'

# WELCOME TO CANECT 2013 April 29 to May 1, 2013

## Your invitation to Canada's leading environmental compliance training event

Once again, we'd like to invite you and your colleagues to attend this year's *21st Annual Canadian Environmental Conference & Tradeshow (CANECT)*.

This spring, as always, CANECT offers a great one-stop opportunity to obtain the latest and best in environmental compliance information, management best practices, technologies, and business solutions.

Environmental compliance training has long been recognized as an essential requirement of the ISO 14001 Environmental Management Standards (EMS) and an acid test of an organization's commitment to "due diligence." Forward-looking organizations, their managers and supervisors, understand that - in an age of increasing scrutiny - such training is not merely an option, it is a necessity.

CANECT courses help registrants increase awareness about the unacceptable human and financial costs of lax operational and management practices while providing practical solutions to everyday issues and concerns.

That's why CANECT courses continue to be the #1 choice of both experienced environmental practitioners, as well as those new to the field. It's why they attract the best speakers. It's why Ontario's Ministry of the Environment (MOE) officials have described them as 'the industry standard' and why the Ministry of Municipal Affairs and Housing (MMAH) lists CANECT among their outreach/education sessions.

After more than 20 years in the environmental field, we believe in a policy of inclusion and broad-based environmental compliance. That's why our registration fees are a fraction of those of similar events and why we continue to reward multiple attendance with generous discounts.

Fortunately, over the years, Canada's environmental professionals have responded. Every year, more and more of Canada's leading organizations register their EH&S teams for CANECT's "gold star" training courses and events. They recognize that an informed colleague is often the best defence against the environmental tragedies that can affect us all.

We urge you to take advantage of this opportunity now to register your team for this year's CANECT. Review the details of the courses offered. Join us this year. Register today.

## CANECT meets the need for practical training in environmental compliance

You can rely on CANECT's proven formula to:

- ✓ Update your knowledge of new regulations;
- ✓ Access leading experts for one-on-one solutions to specific compliance problems;
- ✓ Gain insights into new standards and best management practices;
- ✓ View the latest EHS technologies and solutions;
- ✓ Obtain comprehensive reference and guidance materials to take back and share;
- ✓ Receive a Certificate of Attendance featuring valuable Continuing Education Credits (CECs); and
- ✓ Demonstrate your organization's commitment to environmental responsibility and due diligence.

# LAW

## REGULATION & COMPLIANCE

9:00 a.m.

An indispensable introduction and update on current and future trends in environmental regulation in Canada presented by Bennett Jones LLP's Environment, Health & Safety Group and invited speakers.

### • Introduction to environmental law in Canada

- Where environmental laws come from
- Environmental matters and the Constitution

### • Discharges and spills

- Understanding requirements relating to spills and discharges
- Reporting and mitigation obligations
- Key concepts, including adverse effect and impairment to water quality
- Spill contingency and prevention planning

### • Regulation of water and air

- Key permit and approval requirements
- Water regulation, including *Ontario Water Resources Act*, and *Clean Water Act 2006*
- Regulation of air, noise and GHGs

### • Regulation of waste

- What is waste?
- Key approval requirements for the management and disposal of waste
- Regulation 347
- Extended producer responsibility

2013  
update

Noon

**Complimentary buffet luncheon provided for all regi**

1:00 p.m.

### • Environmental approvals

- The new Environmental Approvals process
- Applying for Environmental Compliance Approvals (ECAs)
- Update on new Environmental Activity and Sector Registry (EASR) regulations

### • Regulation of toxic substances

- *Canadian Environmental Protection Act, 1999*
- *Ontario's Toxics Reduction Act, 2009*

### • Enforcement of environmental laws

- Charges, administrative penalties, orders and warnings
- The federal *Environmental Enforcement Act*
- Inspections and investigations
- Establishing due diligence

### • Contaminated property and brownfields

- Contaminated properties - liabilities & opportunities
- Working with environmental consultants
- Ontario's soil, water and sediment standards
- Brownfield redevelopment and records of site condition

### • Question & Answer

Featured speakers from Bennett Jones LLP's Environment Health and Safety Group include: Leonard Griffiths; Sarah Gilbert; Radha Curpen; Stephen Libin; and Julia Schatz.

5:00 p.m.

See below for CANECT Day 2 program

# 1

## Program - Day 1, April 29

CANECT 2013 is spread over 3 days - April 29-May 1, 2013. Registrants can choose to attend one, two or three days. Substantial discounts reward multiple registrations.

**On Day 1 (April 29):** Registrants can choose one out of the three following courses offered (1A, 1B or 1C).

(Note: Day 1 is a 'conference only' day. Trade show dates are April 30 and May 1 only):

### 1A Environmental Regulation and Compliance 2013 - Essential Overview and Update

CANECT's essential introductory and update course - updated bi-annually and presented in association with leading environmental lawyers from Bennett Jones LLP - has, over 20 years, established a 'gold star' reputation as Canadian industries' chosen source for concise, authoritative and practical training in environmental regulation, compliance and due diligence.

### 1B Air Emissions: A Guide to Management and Compliance

This bi-annual course, now in its 13th year, delivers Canada's most up-to-date and authoritative guide to complying with federal and provincial air and GHG emissions regulations, including new Environmental Compliance Approvals for Air and Noise and the recently-announced national Air Quality Management System. Gain practical insight to help you manage all air-related issues - including those related to emissions of noise, odour and GHGs.

### 1C Brownfields: Identification, Delineation, Option Assessment and the Future

Since 1994, this annual CANECT course - led by leading environmental lawyer, Janet Bobechko, has become the 'go to' source for all engineers, consultants, municipalities, lawyers, planners, site-owners, investors, insurers, developers and MOE staff who need to gain practical insights into the new rules governing soil management, Records of Site Condition, and Phase I and Phase II site assessments. Learn how the regulatory changes which took effect July, 2011 is impacting development now and in the future.

#### Day 1 (April 29) Courses: Approximate times

8.00 - 9:00 a.m.: Registration + continental breakfast  
9:00 a.m. - noon: Morning program in conference rooms  
Noon - 1:00 p.m.: Lunch  
1:00 p.m.: Sessions resume in conference rooms  
4:30 - 5:00 p.m. Sessions end  
(Refreshment breaks are held mid-morning and mid-afternoon)

For best value, choose one of the courses described above, then choose two additional courses from the courses offered on Days 2 & 3 (open page to see full details)

# AIR

1B

## AIR EMISSIONS

### • Integration of the regulatory regime - air quality & noise

- Environment Canada – New Air Quality Management System (AQMS)
- Ontario Ministry of the Environment – Acts and Regulations
- Municipal bylaws (air quality, toxics, noise, sewer discharge)
- Reporting – O. Reg. 127, NPRI, others
- *Mark Vanderheyden, RWDI*

### • Canada's new National Air Quality Management System (AQMS)

- Ontario's Air Quality Context
- The System and its Elements
  - o Base Level Industrial Emission Requirements (BLIERs)
  - o Canadian Ambient Air Quality Standards for Smog
  - o Air zones and airsheds
  - o Mobile sources
- The path forward
- *Ken Smith, Ministry of the Environment*

### • Ontario Reg. 419 – How this regulates air emissions

- Introduction – How Reg. 419 operates to regulate industry
- Other regulations governing emissions to air
- Phase-in dates and NAICS codes
- Technical and site-specific standards
- Opacity
- Director discretion and power – the “Abatement Conversation”
- *John Georgakopoulos, Willms & Shier Environmental Lawyers LLP*

### • Environmental Compliance Approvals and Reg. 419

- Types of Environmental Compliance Approvals
- Determination of Compliance with Yearly Schedules
- Site Specific Approvals
- Sector Specific Technical Standards – i.e. forestry, and others
- New MOE Guidance Documents
- Practical Side of Environmental Activity and Sector Registry (EASR)
- Case study: Working through ECAs and Reg.419
- *David Cotsman, RWDI*

2013 update

# LAND

1C

## BROWNFIELDS

Chaired by Janet L. Bobechko (Certified Specialist Environmental Law) Partner at Blaney McMurtry LLP, this one-day course provides the practical legal and technical background for registrants to successfully navigate the new rules governing contaminated sites.

### • Overview brownfields and contaminated sites

- *Janet Bobechko, Blaney McMurtry LLP*

### • The clash of planning and brownfields rules

- Thinking outside the box - creative ways to deal with contaminated sites
- How to deal with long term monitoring requirements for developments
- Impact on planning permissions
- Risks for developers and municipalities
- *Marc Kemmerer, Blaney McMurtry LLP*

### • Identification: Phase I Site Assessments – How much do you need to know?

- How to advise clients on what they need
- How do assessments differ?
- When to use O. Reg. 153/04 vs CSA standard
- What are “potentially contaminating activities”?
- Limitations and constraints
- Timing, cost issues and level of effort
- Hidden risks
- *Rick German, Decommissioning Consulting Services*

### • Delineation: Phase II Site Assessments - Business vs Technical

- Different types and scope of delineation assessments
- Consultant discretion: what is it & how does it apply to Phase II assessments?
- Consultant responsibility relative to Ministry or other standards
- Benefits and cautions
- The onus on the “qualified person” (QP) to use his/her discretion to make decisions using prescribed Ministry requirements re: identifying and determining samples, etc.
- Guidelines for the decision-making process
- Addressing consultants’ and “other interested party” concerns
- *Steve Quigley, Conestoga-Rovers & Associates*

2013 update

trants: The lunch break on April 29 lasts approx. one hour - from 12 noon until 1:00 pm when sessions resume.

### • Legal aspects of nuisance

- Regulatory orders and prosecutions
- Common Law nuisance actions
- Land use conflicts
- Case studies
- *Jacquelyn Stevens, Willms & Shier Environmental Lawyers LLP*

### • Nuisance issues - odour

- Odour complaints and how they play into the ECA process
- Why is land use planning so important?
- *Mark Vanderheyden, RWDI*

### • Nuisance issues - noise

- Status of NPC 300
- Defining noise impacts for Ontario ECAs and land use
- Assessment techniques: need to know
- Mitigation: whose responsibility is it? Getting started
- *Peter VanDelden, RWDI*

### • Dealing with uncertainty - awaiting MOE policy

- Noise - NPC 300
- Odour – One Odour Unit or ???
- Cumulative Effects
- *John Georgakopoulos, Willms & Shier Environmental Lawyers LLP*

### • Toxic Reduction Act – Practical planning

- Update on regulatory process and O.Reg. 455/09
- What you need to know; what do I need to consider?
- Until December 31, 2013 to Prepare and Certify Phase 2 Toxic Substance Reduction Plans
- Case study: TRA and air emissions manufacturing processes
- *Brad Bergeron, RWDI*

### • GHGs - getting the right approach; lessons learned

- O. Reg. 452/09 Ontario's Approach to GHGs – emissions profiles
- What's happening around us - WCI and cap-and-trade?
- GHG verification, accreditation, and certification – looking forward
- Case study: GHG verification
- *Joanna Vince, Willms & Shier Environmental Lawyers, LLP*
- *Mike Kennedy, RWDI*

### • Is Risk Assessment an effective tool?

- Risk assessment process and components
- Approaches and options discussed through case studies
- Risk management outcomes – what to expect
- New and emerging approaches to obtaining streamlined approvals
- *Cecile Willert, P.Eng., QPRA Associate, Senior Risk Assessment Specialist, EcoMetrix Incorporated*

### • Option Assessment - How to implement business decisions

- Marshalling the lines of evidence to assess options
- How to advise a client on available options
- Implications on options for future site use
- Relative merits of competing technologies
- How to critically read a vendor's brochure
- Separating legitimate from spurious claims
- What are developers looking for - implication for CPUs
- *David Hopper, WESA Inc.*

### • Managing the consultant relationship

- Retaining consultants - retainer agreements, Master Service Agreement
- Legal exposures resulting from “Qualified Persons” sign-off
- Errors and omissions re: investigation reports, remediation options
- Liability and documentation issues
- *Janet Bobechko, Blaney McMurtry LLP*

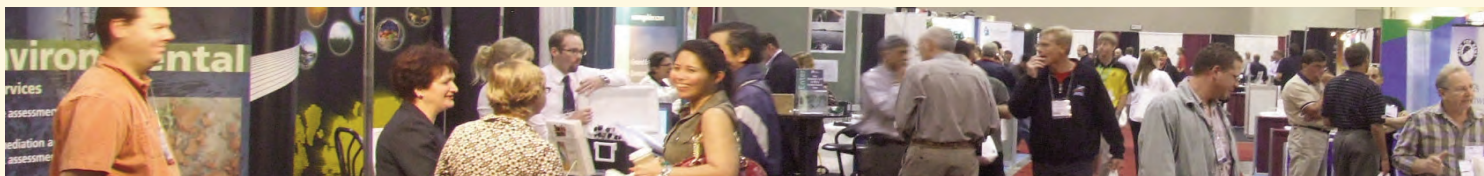

### • Panel roundtable discussion: “If I had a Million Dollars”- (NOT) - So what does the future hold for contaminated and brownfield sites?

- A wide ranging discussion on the top 5 issues facing the industry.
- *Expert panel led by Janet Bobechko, Partner, Blaney McMurtry LLP, and including: Cecile Willert, EcoMetrix Incorporated; David Hopper, WESA, David Harper, Kilmer Brownfield Equity Fund L.P. (TBC); and James Evans, RBC, Corporate Sustainability, Senior Manager and Environmental Risk*

# CANECT 2013 Program for April 30, ( day 2)

## Professional Development Program Overview

The CANECT program of professional development courses is spread over 3 days (see the legend below).

Registrants can choose to attend one, two or all three days. It is therefore possible for each registrant to attend 3 of the 9 courses offered.

**On April 30 (Day 2 of conference)** registrants can choose one out of the three courses described on the following pages (2A, 2B or 2C).

Multiple-day and multiple-registrant attendance provide your best opportunity to exploit the unique benefits presented by CANECT and is encouraged through discount pricing.

Comprehensive handout materials are provided free to all conference registrants.

## The Buzz...What registrants are saying about CANECT courses

*"This was my first exposure to an Envirogate conference and I was very impressed with the high level of professionalism and organization. ... I liked networking with others at my table concerning their environmental compliance issues. .... I thought that the majority of sessions were great... Thanks for a great three days! I will recommend it to others in OMAFRA's Environmental Management Branch."*

**Steve Redmond, Environmental Specialist / NASM, Environmental Management Branch, Ontario Ministry of Agriculture, Food and Rural Affairs**

*"Very knowledgeable moderators and common sense presentations. ... The first day .... (on Environmental Regulation and Compliance) was very comprehensive for a one-day presentation."*

**Maurice Pestowka, Manager, Corporate Environmental Affairs, AGS Automotive**

*"I appreciated the clear definition (of due diligence) and my ... responsibility for a duty of care. This was well presented."*

**Paul Campbell, EH&S Compliance Auditor, Hydro One.**

*"Very practical and conducted by professionals. Useful overview for newcomers as well as for experienced professionals."*

**Faisal Islam, Environmental Program Analyst, Green Manitoba**

*"All speakers were very knowledgeable. Handout materials were excellent."*

**M. Kaleem Khan, Chemical Specialist, Daymond Aluminum**

The 21st Annual Canadian Environmental Conference and Tradeshow - April 29, April 30 and May 1, 2013  
The International Centre, 6900 Airport Rd, Toronto

At-a-glance overview of courses:

### 1 Program for Day 1, April 29, 2013

Choose one out of the three courses offered on **April 29** >

#### 1A

**LAW**  
Regulation & Compliance: The essential introduction & update course

#### 1B

**AIR**  
Air, Noise, Odour and GHGs Regulation & Compliance 2013 update

#### 1C

**LAND**  
Brownfields & Contaminated Soils: Working with the new rules

### 2 Program for Day 2, April 30, 2013

Choose one out of the three courses offered on **April 30** >

#### 2A

**ENVIRONMENTAL DUE DILIGENCE**  
Demonstrating and Documenting Environmental Due Diligence

#### 2B

**WATER and WASTEWATER**  
Regulation and Compliance: Update on the new Fisheries Act

#### 2C

**SPILLS and EMERGENCIES**  
Spills, leaks and incident reporting: contingency planning and response

### 3 Program for Day 3, May 1, 2013

Choose one out of the three courses offered on **May 1** >

#### 3A

**ENVIRONMENTAL MANAGEMENT**  
Practical Management Systems: Tools and Examples

#### 3B

**APPROVALS MODERNIZATION**  
ECAs & EASRs: Compliance update from A-Z

#### 3C

**WASTE: MANAGEMENT DIVERSION & STEWARDSHIP**  
Update on corporate and municipal responsibilities

## Choose one of the following courses offered on Day 2

### 2A Demonstrating and Documenting Environmental Due Diligence

Proof of environmental due diligence can provide managers with a first line of defence against environmental charges and save thousands of dollars in penalties. This course provides practical insight into why it is vital to document and demonstrate environmental due diligence in dealings with employees, suppliers, contractors, consultants, stakeholders, the MOE and in commercial transactions.

### 2B Water and Wastewater: Regulation & Compliance

Controversial new *Fisheries Act* regulations introducing a tougher enforcement and penalty regime while changing the rules on the protection of fish habitats are scheduled to take effect this year. New requirements under the Wastewater Systems Effluent Regulations took effect Jan.1. In addition, new laws implementing source water protection plans will present new challenges for municipalities and industry alike. Attend this course to learn from the experts how these, and other changes, may impact your operations and compliance responsibilities.

### 2C Spills & Emergencies: Reporting, Contingency Planning, Communications and Response

CSA is currently updating CSA Z1600 - the Standard on Emergency Management and Business Continuity. In addition, amendments to federal E2 Regulations, which took effect in 2012, further expand mandatory requirements for contingency planning. Attend this course to gain expert insights into how you can plan for the 'unthinkable', while responding diligently to spills, leaks, and exceedences in order to avoid environmental harm and minimize corporate and personal liability.

See below for CANECT Day 3 program

# DUE DILIGENCE

2013 update

# 2

**Bonus value  
Tuesday, April 30**

✓ Inspiring keynote speaker\*

**The Monumental Shift: An In-Depth Look into the Future of Canada, Technology and the Changing Workforce**

*Leonard Brody,  
Business and  
Technology Visionary*

Leonard Brody has been called "a controversial leader of the new world order." He is a highly respected entrepreneur, venture capitalist and bestselling author.

Leonard addresses how technology will continue to revolutionize the workplace and how corporations can steer toward innovation and growth.

- ✓ FREE admission to Canada's largest EHS Tradeshow
- ✓ Complimentary course materials
- ✓ Continental breakfast, lunch and refreshments included
- ✓ Prize draw for registrants attending CANECT tradeshow
- ✓ FREE parking and easy access

\* Note that speeches associated with the 'Partners in Prevention' event begin at approx. 8.30 am. in Hall 1. Check times of keynote speeches on registration. Since regular CANECT sessions start at 9:00 am, choosing to hear a keynote speaker may mean missing some part of a CANECT course.

9:00 a.m.

• **Introduction: What is environmental due diligence?**

- What is environmental due diligence and why is it important to organizations, their employees and stakeholders?
- *Annie M. Thuan, Thuan Law*

• **Working with environmental consultants**

- Reliance on consultants, contractors and lawyers
- Retaining a consultant - terms and conditions in retainer agreements
- Making the most effective use of the consultant's report
- *Dianné Saxe, Saxe Law Office*

• **Avoiding civil and regulatory liability**

- The importance of due diligence in avoiding civil and regulatory liability
- Documenting your due diligence for defending claims and prosecutions
- *Jennifer Danahy, Gowlings LLP*

• **What directors, officers and managers need to know**

- Environmental duties of directors, officers and managers in Ontario
- Avoiding prosecution of directors & officers for environmental offences
- Establishing that directors and officers exercised "reasonable care"
- Indemnification and insurance coverage for directors and officers related to environmental risks
- *Michael Fortier, Torys LLP*

• **Compliance with regulatory requirements**

- Regulatory compliance reporting requirements
- Establishing regulatory compliance reporting practices
- Implications of sharing information
- Regulatory powers to obtain information and disclosure requirements
- Protecting environmental reports – responding to requests for company documents
- Strategies for managing data storage & access: how to avoid pitfalls
- *Panel: Albert Engel, Fogler Rubinoff LLP (Moderator)*
- *Barry Weintraub, Rueter Scargall Bennett LLP*
- *Fred Maefs, Ministry of Environment, Legal Services Branch*

Noon

**Lunch break: The lunch break on April 30 and May 1 lasts from approx. 12**

**• Take this opportunity to tour more than 350 exhibits of the jointly-located Canada**

2:00 p.m.

• **Environmental Management Systems and Due Diligence in practice: Samples and examples; do's and don'ts**

- Environmental Management System in practice: Establishing an EMS
- Due Diligence and the EMS
- Standards and Best Management Practices
- Documenting Environmental Due Diligence
- Policies, Programs and Performance
- Reputation Management
- *Speakers: Randy Sinukoff, Stantec (moderator);*
- *Joe Vieira, York Region;*
- *Murray Fulmer, Purolator Courier Inc.*

• **Dealing with mould, asbestos and other EHS issues**

- Identifying & responding to mould, asbestos and other building hazards
- The risks of abating the hazard
- The risks of leaving materials in place
- *Carolyn Adams, MMM Group*

• **Environmental due diligence in transactions**

- **Acquisition and sale of contaminated (potentially contaminated) assets**
  - Preliminary considerations for vendors and purchasers
  - Environmental due diligence investigative tools
  - Agreements: warranties, indemnities, insurance, & remedial obligations
- **Environmental provisions in commercial leases**
  - The trick definitions: "Hazardous Substances" and "Environmental Laws"
  - Remediation implications of "good repair" and "reasonable wear and tear"
  - Allocating environmental risks and benchmarking contamination
- *Annie M. Thuan, Thuan Law and Jeffrey Lem, Miller Thomson LLP.*

5:00 p.m.

# WATER

2B

## WATER & WASTEWATER

The rules are changing. New federal Fisheries Act and regulations will introduce new penalties for pollution and mark a major shift from habitat protection to fisheries protection; new federal Water Effluent Systems Regulations will impact all municipalities; and new source protection plans will place new restrictions on industry. Attend this course to find out how these, and other changes, may affect your responsibilities.

New for 2013

### • Overview of the regulatory regime for water and wastewater

- Overview of water legislation (federal, provincial, municipal)
- Juli Abouchar, *Willms & Shier Environmental Lawyers LLP*

### • Federal update: What's new, why is it controversial

- **The new Budget Omnibus Bills and their impacts on the federal role in the management of water resources, fisheries and habitats** (Fisheries Act, Canadian Environmental Assessment Act, Navigable Waters Protection Act, Species at Risk Act, etc.)  
- Theresa McClenaghan, *Cdn. Environmental Law Association*
- **The impact of new federal Wastewater Systems Effluent Regulations**  
- Shannon A Joseph, *Federation of Canadian Municipalities*

### • Provincial update: Moving forward with SPPs

- **The Clean Water Act: Source Protection Plans moving towards implementation**  
To protect drinking water sources against threats from existing and future activities, businesses and institutions will be required to undertake actions to reduce threats from specified activities  
- Beverley Thorpe, *Toronto & Region Conservation Authority*
- **Water Opportunities Act: Moving water technologies to market**  
- Nick Reid, *Ontario Clean Water Agency*

# SPILLS

2C

## SPILLS & EMERGENCIES

Updated for 2013

### • Reporting the unexpected: Spills, leaks, discharges and environmental emergencies: The legal framework

- Overview of the federal and provincial regulatory framework
- Overview of new federal Environmental Emergency Regulations
- Challenges in transport-related spills - air, road, rail, marine  
- Janet Bobechko, *Blaney McMurtry LLP*

### • Spills Action Centre: Specific actions and requirements

- Key legislative requirements
- What happens when you call the Spills Action Centre
- Working with the Ministry's field response
- MOE's Emergency Management Program  
- Gary Zikovitz, *Manager, Ontario Emergency Management Program Coordinator, Spills Action Centre, Ministry of the Environment*

### • Planning for the unthinkable: How standards for emergency and continuity management programs can help

- How CSA and other Standards can help in the development of a comprehensive emergency management program
- CSA Z1600 Standard on Emergency Management & Business Continuity  
- Bill MacKay, *MacKay Emergency Management Consulting Inc.*

### • Contingency planning: Best 'real world' practices

- Dealing with 'time critical issues' and the 'hierarchy of events'
- Quick-check system for gathering the facts
- Classification - incidents, emergencies, disasters
- Plan objectives - manage, access, communicate
- Interface with ER services, regulatory agencies and contractors  
- Cliff Holland, *President of Spill Management Inc.*

### • Q&A: Responding to your 'real world' scenario

- An opportunity to ask the experts
- Panel comprising: Janet Bobechko, Gary Zikovitz, SAC; Bill MacKay, *MEMCI.ca*; Cliff Holland, *Spill Management Inc.*

on until 2pm when sessions resume • Lunch is available in Hall 1, close to the CANECT Tradeshow Exhibit Hall area  
an Environmental Tradeshow and Workplace Safety and Prevention Services' (formerly IAPA) "Partners in Prevention" Expo!

### • Industrial water & wastewater approvals and permits: modernization update

- Water and wastewater approvals under the new modernization model
- Troubleshooting common approvals issues
- Do's, don'ts and cautions  
- Jim Perrone, *Stantec Consulting Limited*

### • Dealing with spills, leaks, exceedences & orders

- Dealing with Ministry inspections and investigations
- Impact of spills and contingency planning regulations
- Enforcement and environmental penalties (EPs)
- Charges, deemed impairment, toxicity testing and due diligence  
- Marc McAree, *Willms & Shier Environmental Lawyers LLP*

### • Municipal sewer-use bylaw compliance (surcharge agreements and compliance agreements)

- Geoffrey Kooymans and Dr. Hamid Salsali, *AMEC*

### • Legal defences against charges

- Panel discussion based on the following presentations:
- **The federal Fisheries Act and HADD update**  
- TBC\*
- **Ecotoxicity testing and toxicity investigations: A case study with a Municipal Effluent**  
- Lesley Novak, *AquaTox Testing & Consulting Inc.*
- **Legal defences (Due diligence and others)**  
- Marc McAree, *Willms & Shier Environmental Lawyers LLP*

\* See most recent speaker updates by clicking on the conference brochure at: [www.envirogate.ca](http://www.envirogate.ca)

### • Case history - contingency planning for 'a city within a city'

- Toronto Pearson Airport's environmental contingency planning: You won't believe what moves through an airport! Two billion litres of fuel; \$120 million in spill containment facilities You better have a plan!  
- Derek Gray, *Greater Toronto Airports Authority (GTAA)*

### • Legal cautions: How to act diligently to best mitigate harm and minimize liabilities, charges and penalties

- What is the interpretation of "may cause adverse effect" ?
- What is the significance of "deemed impairment" ?
- Fines, sentences and environmental penalties (EPs)
- Handling IEB spills and investigations
- What due diligence measures should your company adopt?  
- Janet Bobechko, *Blaney McMurtry LLP*

### • Effective emergency planning: Command and control

- Designating an in-house emergency response team
- Prioritize preventive preparedness and response measures
- Establishing a capability to "size up" safety and danger factors
- Quick-check for gathering the facts
- Develop location-specific response procedures and guidelines  
- Cliff Holland, *President of Spill Management Inc.*

### • Social media in environmental emergency management

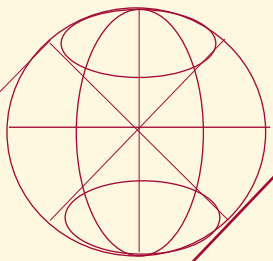

- Best practices for using social media in an environmental emergency  
- Christel Ivanyshyn, *Perth County*

### • Insuring against spills & environmental emergencies

- Environmental regulatory drivers versus insurance contract drivers
- Clean up responsibility and payment responsibility
- Risk assessment on a spill covered by insurance
- What should the technical professional know about bad faith claims.  
- Mark Samis, *AECOM*

# CANECT 2013

## Program for May 1, ( day 3 )

### Professional Development Program Overview

The CANECT program of professional development courses is spread over 3 days (see the legend below). Registrants can choose to attend one, two or all three days. It is therefore possible for each registrant to attend 3 of the 9 courses offered.

**On May 1 (day 3 of conference)** registrants can choose one out of the three courses described on the following pages (3A, 3B or 3C).

Multiple-day and multiple-registrant attendance provides your best opportunity to exploit the unique benefits presented by CANECT and is encouraged through discount pricing.

Comprehensive handout materials are provided free to all conference registrants.

### The Buzz... What registrants are saying about CANECT courses

*"What I enjoyed most about the 3-day conference was the opportunity to hear from the MOE - With respect to the new modernization of approvals it was great to hear from those who had their hands on developing the process as well as those who will be dealing with our applications."*

**Alicia Corscadden, R.E. Poisson Engineering Inc.**

*"Having lawyers/MOE onsite allowed for better understanding of the topics ... they were all great presenters...."*

**Holly McDonald, ES Specialist, Labatt Breweries of Canada LP**

*"What I appreciated most ... was ...the high involvement of Ministry of the Environment delegates both in presenting material ... and being available to answer questions from the course participants."*

**Kristina D. Puterbough, Pickering Environmental Compliance, OPG**

*"I liked the interaction with the guest speakers on the topics and the feedback from them. They were all very professional."*

**Kevin Grosbeck, Environment and Safety Supervisor, Great Lakes Copper Inc.**

*"It's all great information. All speakers are great and offer a lot of opportunity for questions with great answers."*

**Cheryl Masse, EHS Specialist, TS Tech Canada**

The 21st Annual Canadian Environmental Conference and Tradeshow - April 29, April 30 and May 1, 2013  
The International Centre, 6900 Airport Rd, Toronto

At-a-glance overview of courses:

1

### Program for Day 1, April 29, 2013

Choose one out of the three courses offered on **April 29**  
>

<b>1A</b> <b>LAW</b> Regulation & Compliance: The essential introduction & update course	<b>1B</b> <b>AIR</b> Air, Noise, Odour and GHGs Regulation & Compliance 2013 update	<b>1C</b> <b>LAND</b> Brownfields & Contaminated Soils: Working with the new rules
--	---	--

2

### Program for Day 2, April 30, 2013

Choose one out of the three courses offered on **April 30**  
>

<b>2A</b> <b>ENVIRONMENTAL DUE DILIGENCE</b> Demonstrating and Documenting Environmental Due Diligence	<b>2B</b> <b>WATER and WASTEWATER</b> Regulation and Compliance; Update on the new Fisheries Act	<b>2C</b> <b>SPILLS and EMERGENCIES</b> Spills, leaks and incident reporting: contingency planning and response

>

<b>3A</b> <b>ENVIRONMENTAL MANAGEMENT</b> Practical Management Systems: Tools and Examples	<b>3B</b> <b>APPROVALS MODERNIZATION</b> ECAs & EASRs: Compliance update from A-Z	<b>3C</b> <b>WASTE: MANAGEMENT DIVERSION &amp; STEWARDSHIP</b> Update on corporate and municipal responsibilities
--	---	---

### Choose one of the following courses offered on Day 3

#### 3A Environmental Management Tools and Examples

This new 'Environmental Management Essentials' course offers practical tools and examples to help you implement an environmental management system that works with similar standards covering health and safety, quality, and energy management. Environmental Management Standards under ISO 14001 are outlined, along with opportunities for integrating these with other management and sustainable development standards and improving the overall management system performance. A special environmental management forum provides registrants with a unique opportunity to learn from peers.

#### 3B Approvals Modernization: The 'industry standard'

The new regime for environmental approvals took effect Nov. 1, 2011 and is still 'a work in progress.' This course, jointly presented by members of MOE's Approvals Modernization branch and approvals specialists at Golders, has been called "the industry standard" for those wanting to keep up-to-date with the latest developments, as well as those seeking guidance on best practices for managing all types of approvals and permits. Here is a unique opportunity to interact with the Ministry and learn the latest developments in using the EASR registry.

#### 3C Waste: Management, Diversion & Stewardship

This new course, chaired by Peter Klaassen of RWDI, is designed to help industry, private sector and municipal managers comply with new waste management requirements while meeting complex challenges ranging from confronting practical problems of dealing with odour and dust to dealing with the duties and costs of extended product stewardship, reduction and diversion plans, and new treatment options.

# ENVIRONMENTAL MANAGEMENT

New for  
2013

# 3

**Bonus value  
Wednesday, May 1**

✓ **Inspiring keynote speakers\***

Morning keynote:

**Overcoming Obstacles to  
Achieve the Olympic Dream**

**Clara Hughes,  
Six-time Olympic Medalist  
Summer and Winter Olympic Games**

Clara Hughes is one of the biggest stories in Canadian sports. She is the only Canadian to have won medals in both the Summer and Winter

Olympics. Clara is a designated spokesperson for Bell Canada's "Let's Talk" campaign which raises awareness and encourages dialogue about mental health.

Luncheon speaker:

**Work-Life Balance –  
Rhetoric Vs Reality**

**Dr. Linda Duxbury  
Professor, Sprott School of Business  
Carleton University**

Canada's most accomplished researcher, writer and speaker on work-life balance. She has influenced policy and attitudes to help create supportive work environments in both the private and public sectors. Always an enlightening and popular speaker, Dr. Duxbury's ideas are highly valued by major corporations and government agencies.

- ✓ FREE admission to Canada's largest EHS Trade show
- ✓ Complimentary luncheon address
- ✓ Prize draw - exclusive to conference registrants
- ✓ FREE parking and easy access

\* Note that speeches associated with the 'Partners in Prevention' event begin at approx. 8.30 a.m. in Hall 1. Please check exact time of keynote address on registration.

9:00 a.m.

**PRACTICAL MANAGEMENT SYSTEM TOOLS AND EXAMPLES**

*Presented by Randy Sinukoff, M.A.Sc., P.Eng., EP(EMSLA) and Wesley Gee, M.Sc., AIEMA, Stantec Consulting Ltd.*

• **Management system models**

- **Evaluating business impacts and risks**
  - Voluntary vs. regulatory controls
  - Stakeholders and risk tolerance
  - Life cycle/value chain approach
- **Overview of ISO Management System Standards**
  - Integrating environment; health & safety; quality; and social responsibility approaches
- **Integrating stakeholder involvement**
  - Employee, supply chain and public involvement
  - Communications and corporate reporting
  - *Randy Sinukoff; Wesley Gee, Stantec Consulting Ltd.*
- **Case study**
  - *Industry guest speaker TBC\**

• **Improving management system planning and performance**

- **Managing by fact**
- **Conducting baseline assessments**
  - Footprints
  - Compliance audits
- **Examples of footprints (carbon, water, materials)**
  - Case study:
  - ISO 50001 (Energy Management Systems)
  - Experiences with measuring performance
  - *Andrew Penner, Stantec Consulting Ltd.*

*Workshop #1: Measuring performance*

Noon

**Lunch break: The lunch break on April 30 and May 1 lasts from approx. 12 noon to 1:00 p.m.**  
• Take this opportunity to tour more than 350 exhibits of the jointly-located Canadian and U.S. EHS Trade Shows

2:00 p.m.

• **Integration and effectiveness**

- **Moving from operational efficiency to opportunity**
- **Examples of integrated topics and frameworks** (e.g. Global Reporting Initiative, Towards Sustainable Mining and ISO 26000)
- **Use of resources**  
*Workshop #2 – Integrating Management Systems and Sustainability*

• **Applying management systems –  
Environmental managers' forum and panel discussion**

- **Compliance systems**
  - *Jay Silverstein, Regional Municipality of York*
- **Environmental programs**
  - *Murray Fulmer, Purolator Courier*
- **Emergency preparedness and response**
  - *Guest speaker TBC\**
- **Inputs to, and follow-up on, the corrective action process**
  - *Phil Webber, SPAN OMS Inc.*
- **Summary of key concepts**

• **The business case for innovation and improved performance**

- **Building on the baseline**
- **Performance metrics**
- **Self-Assessment and Action Planning**  
*Workshop #3 – Identifying gaps and actions – next week's To-Do List*

\* See most recent speaker updates by clicking on the conference brochure at: [www.envirogate.ca](http://www.envirogate.ca)

5:00 p.m.

# ECA

3B

## APPROVALS MODERNIZATION

### • 5-step process to take advantage of Approvals modernization

- Five step process to receiving a timely approval
- What are your requirements under the new approvals and permits process?
- *Sean Capstick, Golder Associates Ltd.*

### • Step 1: Determining and understanding Approval needs/overview of the regulatory framework

- Overview of the approval requirements related to the discharges to air, noise, industrial sewage, permits to take water and waste approvals including changes to Environmental Compliance Approvals
- Specific examples of situations that do and do not require approval
- Penalties for not obtaining approval
- Discussion of the increased focus on the Public's Appeal Rights
- *C.W. Daniel Kirby, Oslers LLP*

### • What's new: Approvals modernization and what it means to you

- Overview of the Approvals Modernization Process in Ontario
- Lessons learned since Oct. 31, 2011 and what's next
- Forthcoming activities and sectors being considered for the Registry
- *Marcia Wallace, Director, Modernization of Approvals Project, MOE*

### • Applying for an Environmental Compliance Approval

- Applying for an Environmental Compliance Approval
- ECA guide – feedback and response
- ACMEs
- System-wide approvals
- *TBA, Modernization of Approvals Project, Ministry of the Environment*

### • Registering on the new Environmental Activity and Sector Registry (EASR)

- Self registration under EPA Part II.2
- Details on the proposed rules for specific activities and sectors and fees
- *TBA, Modernization of Approvals Project, Ministry of the Environment*

New for 2013

# WASTE

3C

## WASTE MANAGEMENT

### • Integration of the federal/provincial regulatory regime

- Federal legislation and Environment Canada's role
- Ontario Ministry of the Environment – Acts and Regulations
- *Jacquelyn Stevens, Willms & Shier Environmental Lawyers LLP*

### • What is Waste? What should be waste?

- Definition of waste materials
- Exemptions and recycling
- *John Georgakopoulos, Willms & Shier Environmental Lawyers LLP*

### • Waste Permits and Approvals

- Waste management Environmental Compliance Approvals (ECAs)
- Renewable Energy Approvals
- Waste transportation
- Terms, conditions and financial assurance
- *Ontario Ministry of Environment (Invited)*

### • Practical issues related to waste management

- Nuisance mitigation – odours, dust, wind-blown litter
- Monitoring requirements
- *John DeYoe, RWDI*

### • Environmental assessment (EA) for waste management

- EA Process, and Hearings
- Appeals - Environmental Review Tribunal, Ontario Municipal Board (OMB)
- Case Studies
- *Joanna Vince, Willms & Shier Environmental Lawyers LLP*

### • Extended producer responsibility

- Municipal Role
- Stewards' Perspective
- Diversion Programs – Blue Box Waste, Used Tires, Waste Electrical and Electronic Equipment (WEEE), Municipal Hazardous and Special Waste (MHSW), Industry Stewardship Plans (ISPs)
- *Michael Scott, Waste Diversion Ontario*

New for 2013

1000 until 2pm when sessions resume • Lunch is available in Hall 1, close to the CANECT Tradeshow Exhibit Hall area  
ian Environmental Tradeshow and Workplace Safety and Prevention Services' (formerly IAPA) "Partners in Prevention" Expo!

### • 5-step process to environmental approvals modernization

- Case study-based discussion with practical tips for contentious projects

### • Step 2: Pre-submission consultation

- Strategies to manage changes to public notice and consultation requirements under the Environmental Bill of Rights (EBR)
- Multi Media Approvals, cumulative effects - when actions beyond compliance are necessary
- Enhanced public consultation for Green Energy projects
- *Peter Brown, Golder Associates Ltd.*

### • Step 3: Accepted practices and processes

- Key issues to obtain your ECA. Best practices and pitfalls. How are applications processed? Case study discussion on new Multi-Media ECA's

**Air:** - Implementation issues with the ECA and ESAR re: registerable activities  
- Key air issues needed to obtain an ECA  
- Understanding 'Limited Operational Flexibility' and how to define a large operating envelope to maximize flexibility

- New Ontario Air Quality and Technology standards

**Noise:** - New requirements of updated noise guidelines  
- Understanding the various noise screening processes

- Negotiating a Noise Abatement Action Plan

**Water:** - Permits to Take Water (PTTW)

- Stormwater Infrastructure and Controls as 'Sewage Works'
- Letter of Clearance from the CA

- Other approvals under the *Ontario Water Resources Act*

**Waste:** - Understanding the types of facilities that require an ECA  
- New EASR requirements for waste management systems  
- Understanding the Limited Operational Flexibility and how to define a large Operating Envelope to maximize flexibility

### • Step 4: Creating high quality reports

- New 'smart application form' and guidance documents
- Accessing the new public search engine and Application Package databases
- Enhanced application screening - making sure your application is not returned

### • Step 5: ECA review and negotiation

- So you have your Draft ECA – what's next? Understanding and reviewing ECA conditions; negotiation with MOE – ECA conditions
- *Golder Associates Ltd. Panel: Sean Capstick; Peter Brown (Consultations); Natalie Hamilton (Air Quality); Paul Niejadlik (Noise); Craig Kelly (Hydrogeology); Steve Auger (Stormwater); Melanie Kennedy (Surface Water); Amy Burke (Waste).*

### • Waste generation, classification, and processing

- How waste is generated
- Toxic Reduction Act (TRA) requirements re: waste
- Classification of waste
- Processing of waste – key considerations
- Planning for zero waste
- Case study: Industrial facility
- *Peter Klaassen, RWDI*

### • Managing industrial/commercial non-hazardous wastes

- Categorization
- Storage, mixing and processing
- Land disposal restrictions
- Waste audits and reduction
- Used oil, reconditioned solvents, waste exchange
- Case Study: Waste generated from industrial processes
- *Terry Suknandan, Waste Management of Canada*

### • Hazardous waste registration, transportation, and manifesting

- Process of classifying and registering waste
- TDG classification requirements
- Use of manifest
- International shipments
- Registration, Classification, Permit Requirements
- *J.P. Pepin, Stericycle*

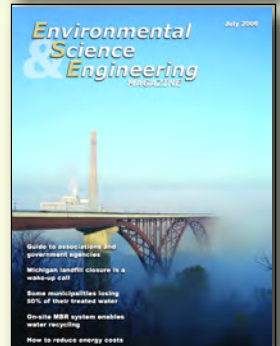

### • Update on emerging waste processing technologies

- new advances in:
  - gasification
  - anaerobic digestion
  - waste processing
- *Expert panel chaired by Peter Klaassen, RWDI*

### • Open Q & A

**You are invited! Join us! Update your knowledge, bring your staff and join Canada's environmental community for three days of inspiring professional development at Canada's largest and most cost-effective environmental compliance training event!**

**Corporate participants:**

Over 350 leading companies and organizations now make it their annual practice to send staff to CANECT courses. Past participants have included:

- 3M Canada
- Alcan International
- Algoma Steel
- Allen-Bradley
- Atomic Energy of Canada
- Ault Foods
- BASF Canada
- Bayer, Rubber Division
- Beaver Lumber Company
- Bell Canada
- Benjamin Moore & Co.
- Bombardier
- Brampton Hydro-Electric Commission
- CAMI Automotive
- Canadian Coast Guard
- Canadian Pacific Railway
- Canadian Standards Association
- Canadian Tire Corp.
- Cara Operations
- Carlton Cards
- Celanese Canada
- City of Calgary
- City of Etobicoke
- City of Kingston
- City of London
- City of Mississauga
- City of Oshawa
- City of Toronto
- Colgate-Palmolive Canada
- Consumers Gas
- Cuddy Food Products
- Custom Pharmaceuticals
- Dept. of National Defence
- Diamond Aircraft Ind.
- Dofasco
- Dominion Colour Coat
- Domtar Specialty Fine Papers
- Dupont Canada
- Dynatec Mining
- EB Eddy Forest Products
- Edmonton Power
- Effem Foods
- Environment Canada
- Estée Lauder Cosmetics
- Fabricated Steel Products
- FAG Bearings
- Falconbridge
- First Brands Canada Corp.
- Fluor Daniel
- Ford Motor Co. of Canada
- Fuji Photo Film Canada
- GE Plastics Canada
- General Motors of Canada
- George Weston
- Gerdau Courtice Steel
- Go Transit
- Golder Associates
- Goodyear Canada
- Grant Forest Products
- Health Canada
- Hemlo Gold Mines
- Home Hardware, Paint Division
- Hostess Frito-Lay
- ICI Paints Canada
- Imperial Oil
- Imperial Tobacco
- International Wallcoverings
- Intertec Systems
- John Deere
- Johnson & Johnson
- K-G Packaging
- Kimberly-Clark
- Kinross Gold Corp.
- Kirkland Lake Power Corp.
- Kuntz Electroplating
- Labatt Breweries Canada
- Laidlaw Carriers
- Lake Superior Power
- Laurel Steel
- Leaver Mushrooms Co.
- Lepage's
- Litton Systems Canada
- Long Manufacturing
- Longo's Fruit Market
- Macmillan Bloedel Forest Products
- Manchester Plastics
- Manitoba Hydro
- Maple Leaf Poultry
- Metro Planning Dept.
- Moore Business Forms
- Nabisco Brands
- Nacan Products
- National Energy Board
- Navistar International
- Nelson Steel
- Nestle Canada
- Nexacor Realty Mgmt.
- Niagara Waste Systems
- Nortel Canada
- North York Board of Ed.
- Northland Fuels
- Northrop Grumman Canada
- Nova Chemicals
- Nova Scotia Liquor Commission
- Novopharm
- NTN Bearing Mfg.
- Ontario Hydro
- Ontario Realty Corp.
- Orenda Aerospace Corp.
- Owens-Corning Canada
- Paperboard Industries Corp.
- Parry Sound Fire Dept.
- Pebblestone Multi- Services
- Petro-Canada Products
- Pfizer Canada
- Philip Services Corp.
- PPG Canada
- Pratt & Whitney Canada
- Procter & Gamble
- Quebecor Printing
- Redpath Sugars
- Region of Durham
- Region of Halton
- Region of Hamilton-Wentworth
- Region of Ottawa-Carleton
- Region of Peel
- Region of Waterloo
- Region of York
- Reynolds-Lemmerz Ind.
- Rockwell Automation
- Rohm and Haas Canada
- Rothsay, Member of Maple Leaf Foods
- Royal Canadian Mint
- Royal Ontario Museum
- Saskatoon Chemicals
- Saskpower
- SC Johnson Wax
- Sears Canada
- Selectone Paints
- Shell Canada Products
- Sherwin-Williams Canada
- Siemens Automotive
- Slater Steels
- Spar Aerospace
- St. Laurent Paperboard
- St. Lawrence Seaway Authority
- Stanchem
- Stantec
- Sterling Pulp Chemicals
- Sun-Canadian Pipe Line Co.
- Sunoco
- Syncrude Canada
- The Minute Maid Co. of Canada
- Thunder Bay Harbour Commission
- Toronto General Hospital
- Toronto Hydro
- Toronto Terminals Railway
- Toronto Transit Comm.
- Town of Midland
- Toyota Motor Manufacturing Canada
- Trans Alta Energy
- Transcanada Pipelines
- Transcontinental Printing
- Transport Canada
- Tremco
- Ultramar
- Union Gas
- Wabco Westinghouse Railway Canada
- Westcast Industries
- Westroc Industries
- Windsor Mold
- Windsor Utilities Comm.
- Wolverine Tube
- Xerox Canada

(\* Invited - check brochure at www. envirogate.ca for latest speaker updates)

# CANADIAN ENVIRONMENTAL CONFERENCE & TRADESHOW 2013 REGISTRATION

Please use a separate registration form for each delegate - Photocopy as needed

**TO REGISTER:** Once you have decided on which courses you and your colleagues want to attend, simply complete and send the adjacent Registration Form. Alternatively, register online via: <https://www.microspec.com/reg/CANECT2013/>

**YES!** Reserve a place for me and my colleagues\* at CANECT 2013 (at the International Centre, 6900 Airport Road, Mississauga [Toronto], Ontario, Canada)

My name is: (please print) .....

Job title: .....

Organization: .....

Street address: .....

Town:..... Prov:..... Post Code:.....

My phone# is: ( ) ..... My fax # is: ( ) .....

My email address is: .....

I am signing up for the following course(s): ..... + ..... + .....  
(Identify course selection by letter and number eg. 1A + 2B + 3A etc. [see legend opposite])

**\* IMPORTANT: When registering multiple registrations, fill-in a separate Registration Form for each delegate – (copy this form as needed).**  
Fax or mail in all forms together to be sure to qualify for discounts (see below).

## 1 Program for Day 1, April 29, 2013

Choose one out of the three courses offered on April 29 >

<b>1A</b> <b>LAW</b> Regulation & Compliance: The essential introduction & update course	<b>1B</b> <b>AIR</b> Air, Noise, Odour and GHGs Regulation & Compliance 2013 update	<b>1C</b> <b>LAND</b> Brownfields & Contaminated Soils: Working with the new rules
--	---	--

## 2 Program for Day 2, April 30, 2013

Choose one out of the three courses offered on April 30 >

<b>2A</b> <b>ENVIRONMENTAL DUE DILIGENCE</b> Demonstrating and Documenting Environmental Due Diligence	<b>2B</b> <b>WATER and WASTEWATER</b> Regulation and Compliance; Update on the new Fisheries Act	<b>2C</b> <b>SPILLS and EMERGENCIES</b> Spills, leaks and incident reporting: contingency planning and response

### COURSE FEE FOR SINGLE REGISTRATION

- Single-day registration = \$670 + HST per person
- 2-day registration = \$990 + HST per person
- 3-day registration = \$1365 + HST per person

### REGISTER 3 DAYS AND ENTER DRAW TO WIN AN I-PAD

Note that by registering for all three days at CANECT you save over \$700 off the cumulative single-day rate and pay just \$455 or less per course. In addition, persons who register and pay to attend all three days at CANECT are automatically entered in a draw to win a brand-new I-Pad Mini! It's by far your most cost-effective option!

### DISCOUNTS FOR MULTIPLE REGISTRATIONS

CANECT generously rewards multiple registrations - by joining Canada's major corporations by registering your entire team, you immediately access substantial discounts for 2- and 3-day attendance (see 'payment options' box for details).

### ALL REGISTRATION FEES INCLUDE:

- FREE hand-out materials, CDs, workbooks and proceedings
- FREE PASS to attend keynote speakers and both the environmental and health and safety tradeshow
- Complimentary breakfast, coffee and lunch
- Certificate of Attendance showing Continuing Education Credits (CECs) on completion

### CANCELLATIONS POLICY:

Refunds will be given for cancellations received in writing by April 14, 2013. Refunds cannot be given after this time. Delegate substitution is permitted at all times. Please note, if you register for the session and do not attend, you are liable for the full fee.

### ACCOMMODATION AND HOTEL DISCOUNT:

CANECT has arranged a special room rate of \$115.00 per night at the Sandman Signature Hotel Toronto Airport. <[www.sandmanhotels.ca](http://www.sandmanhotels.ca)>. The hotel is located at 55 Reading Court, Toronto, Ontario, M9W 7K7, which is about 3 km east of the International Centre. Reservations can be made by telephone at 1-800-SANDMAN or 416-798-8840 x 2, or through e-mail at [res\\_toronto@sandman.ca](mailto:res_toronto@sandman.ca) **Individuals must state that they are with CANECT to receive special group rates.**

### PROGRAM CHANGES:

The organizers reserve the right to change the program content and to substitute speakers and content where necessary without further notice. Should circumstances require it, the organizers also reserve the right to relocate and reschedule this event within a six-month period of the scheduled date and assume no liability for these changes.
